0,1 € PER PRODUCT GOES TOWARDS SUSTAINABLE FORESTRY IN PANAMA*

In Panama deforestation is a huge problem and replantation is insufficient. Project Tropical Mix aims to combine sustainable forestry together with the conservation and protection of biologically diverse areas and rich ecosystems. This tree planting project stretches over several provinces in Panama extending over an area of 3000 hectares. Over a total of 1.9 million trees have been planted since the implementation of the project not only reducing carbon dioxide levels but also helping to conserve water which reduces the risk

of erosion. The project has so far contributed to a reduction of CO2 emissions of approximately 135 000. Aside from the ecological advantages Tropical Mix also has vast social advantages. Parts of the area have been used for sustainable cocoa production which has a positive effect on the local economy. The project has even generated long term employment opportunities with health insurance and pensions for the local community. Tropical Mix is certified by among others Gold Standard, FSC and The Rainforest Alliance.

Tina

In my kitchen it's noisy, high ceilings and far from perfect. Just as it should be when cooking. With my food I want to give you greater confidence in the kitchen. I simply want to help you challenge conventions, and to ignore everything that is considered right or wrong. In my kitchen it's anything but lavish or perfect. There is no induction hob, large stainless steel kitchen appliances or even dishwasher. Here is an old electric stove and a tired dough mixer. It's a very ordinary kitchen, just like the vast majority of ordinary, cramped and sometimes scrumptious kitchens in this country.

And that is after all the whole point!

FROM CONCEPT TO REALITY

– a concept that enhances your brand

Our business concept is to work for and with our customers and to enhance your brand together. We're presenting a concept here that has been carefully developed by us in order to suit you in particular and to help you to become more visible.

This is how it works

1. Having agreed with the customer about what you want to achieve with your brand, we contact our design agency...
2. we ask them to draw up design proposals for your towel...
3. ...we then send the sketches out to you for any comments – and we make the necessary adjustments according to your preferences...
4. ...we then send the sketches to the factory, where your towel is produced.

TOWEL WITH WOVEN BORDER

This technique means that we weave the logo or the pattern you like in the border. You can choose up to 4 colors including the color of the towel.

Quantity

Minimum quantity is 200 pcs. The design confirms from the sketch/picture.

TOWEL WITH PRINT

Do you want to create a totally unique towel with many colors, perhaps this method is the best option when even printing of photographs is possible. We can print all over the towel's surface.

Quantity

Minimum quantity is 200 pcs. The design confirms from the sketch/picture.

TOWEL WITH EMBROIDERY

With this method, you can embroider any logo or pattern you wish. Placement of the embroidery is optional. Of course, you get to choose your own PMS color logo or pattern. The price is based on 5000stiches but you can make larger or smaller embroidery if you like.

Quantity

Minimum quantity is 200 pcs.The design confirms from the sketch/picture.

RELIEF WOVEN TOWEL

Relief technique means “cutting out” the print in the towel. The print goes tone in tone as the color of the towel witch gives a soft but prominent pattern and a discreet and stylish labeling.

Quantity

Minimum quantity is 200 pcs.The design confirms from the sketch/picture.

JACQUARD WOVEN TOWEL

This technique means weaving a pattern / colors in the towel. Usually or technically, it is easiest to use two colors; one bottom color and one color of the logo. If you want to mix a light and a dark color we recommend to use higher gram weight to avoid colors see through. It is good to know is that the towel has a positive and a negative side. This is an appreciated and luxurious quality.

Quantity

Minimum quantity is 500 pcs.The design confirms from the sketch/picture.
